2020 GOSPELINK  
ANNUAL REPORT &  
MINISTRY SUMMARY

gospelink

gospelink

## TWENTY-THREE YEARS AND COUNTING

*Thoughts from the Founder & the President*

It is our privilege to present to you the Annual Report for the year 2020. Though the last year held many unique challenges for the nation and even for the world at large, as a mission it proved to be a year of victories for God's kingdom. For the tens of thousands who heard the gospel and received the gift of salvation, 2020 will forever be remembered as the greatest year of their lives.

The year 2020 marked the twenty-third year of ministry for Gospelink. When the mission was founded in April 1998, several different names were considered. Ultimately "Gospelink" was chosen because it best described what we would endeavor to accomplish — to advance the gospel throughout the world. We felt one of the best ways to accomplish this objective was by partnering with Christian leaders who were already actively involved in evangelism, discipleship, and church planting within their own nations. However, there were financial limitations faced by most of these leaders. They needed partners to join or "link" with them to enhance and accelerate

their gospel efforts. With that in mind, Gospelink was birthed and the National Preacher Sponsorship Program began. Through the years many generous partners, who have a heart for the gospel and a willingness to do what they can to share it throughout the world, have joined together with us for this mission. You are commended for your help!

After all these years, advancing the gospel is still at the core of all we do. We sometimes adjust our methods or add programs, but we remain true to our founding purpose — to advance the gospel throughout the world. Rejoice with us as you read what God accomplished through your partnership with Gospelink during 2020.

Stephen Nelms |  
President

Lewis Nelms | Founder

# TOGETHER IN THE SOUTHERN HEMISPHERE

*The Road may be Difficult but Together We Persevere*

Imagine being away from your home, around the other side of the globe, and getting sick. In fact, one of Gospelink's Field Directors found himself in that exact situation. *"Contracting the COVID-19 virus reminds me of the early missionaries who packed their belongings in caskets and set sail for the continent of Africa. They realized that going to Africa almost always ended in death. These early missionaries had such a heart for the lost in Africa they cried out 'though thousands of us die, please send more!'"*

This same heart cry was in the founder of Gospelink when he came to Africa for the sake of the gospel. He slept in tents on untouched Zambian soil and even contracted malaria more than once, yet cried out "Send more!" Through the last 23 years, many have come alongside Gospelink with prayers and financial help. Hundreds have literally touched this continent with us by traveling to Africa to share the gospel. Thank You!

This same spirit, fueled by those early missionaries, remains all over the African continent. Not only does Gospelink partner with almost 1,000 National Pastors in eight African countries, right now Gospelink is moving into the northeastern part of Mozambique to reach refugees and Islamic communities. This new Church Planting Initiative strategically provides resources so the gospel can be shared among Muslim

communities and in areas where the name of Jesus has never been spoken. Though these situations are dangerous and identities must remain hidden, these church planters also are crying out, "Please send more!" One church planter uses a boat with a sail and two rudders to go up and down the coast to minister. In his last report he was blown out into the ocean because he did not have a motor to power his boat. But he cried out, *"Though I be blown out into the ocean and fear for my life, please send more laborers."*

In the neighboring country of Zimbabwe, dozens of preachers are enabled to do ministry more effectively through their partnership with Gospelink. One such pastor had a thriving church in Bulawayo where he had running water, electricity, and comfortable living. This pastor left the comforts of this church and relocated

to a very rural area without any of these comforts. He also cries out, *"Though my living conditions are very harsh, please send more church planters."*

No matter which aspect of ministry has drawn you to partner together with us, the result has been countless hours of gospel ministry, thousands of churches being planted, and an untold number of souls brought into God's kingdom. Because of you, over 1200 National Pastors are assisted so they can focus on evangelism, discipleship, and church planting.

In the words of one of Gospelink's Field Directors, *"Contracting COVID has probably been the best thing my Lord has done for me in a long time. Now I can cry out with a different voice, thank you for sending me out and all of my fellow laborers. We love you and thank you for your support!"*

## AGAINST ALL ODDS

### *Serving the Lord in Difficult & Dangerous Times*

How do you serve the Lord in impossible circumstances? In the Bible, there are many people that lived for Him in the midst of great difficulty. Think about Noah, Abraham, Joseph, Ruth, Esther, or Rahab. A modern-day example of this is found in the Democratic Republic of the Congo (DRC) where Gospelink supports over 100 families serving the Lord against impossible odds. DRC is a nation of 88 million people (about twice the population of California) who live in a vast nation of dirt roads, little electricity, over 100 active rebel groups, and the largest UN peace keeping army in the world.

This is exactly where Pastor Isidore lives! He was a former Congolese soldier who killed dozens of people before coming to Christ and finding peace and forgiveness in Him. He was trained for the ministry under the leadership of National Director, Athanase Habimana. Now, Pastor Isidore is a Gospelink missionary and he takes the light of the gospel into the darkness! Often, he is gone for weeks to share the gospel in remote villages, military camps and rebel camps. On a recent evangelism trip, he discovered that six of his seven children had become so sick that three of them were hospitalized for treatment and

one of them almost died. The funds he received from his sponsors in the USA helped them to recover and live yet another day. Last year he took the Good News to Kibumba and Nyanza villages and also to Rumangabo military camp. In this camp, Pastor Isidore read from

1 Corinthians 3:16 and shared how God created our bodies to be a temple where His Spirit can live. He also explained how many of us use our bodies to do evil and that we do not allow God to live within us. From Romans 6:23 he shared that the wages of sin is death, but faith in Jesus Christ provides everlasting life! These soldiers listened with

great intensity to the man of God as he explained what his former life was like and what his life is like now. Through his testimony and the reading of God's Word, 50 soldiers in Rumangabo camp received Christ in 2020. Now, Pastor Isidore has baptized 40 of them and they are growing and becoming disciples who will make more disciples in the months and years to come.

God is still changing lives and authoring His story through exceedingly difficult circumstances in the Democratic Republic of the Congo. Would you pray for our native missionary families serving the Lord in this far away nation?

## RWANDA STRUGGLES THROUGH SHUT DOWNS

*The Gospel Continues On*

Rwanda, though small in size, has made some amazing impacts in the world since 1994 when thousands died in the 100-day genocide. Pastor Ephrem is a Gospelink missionary in the southern hills of this beautiful nation filled with coffee, tea, and banana farms. Though he lived through those painful days in 1994, today his life is one of joy and thanksgiving! He lives in a remote village on a dirt road, but there the Holy Spirit is alive and well and lives are being transformed by the gospel.

The COVID-19 pandemic of the last year reached even into his small village in the vast jungles of Rwanda. There he saw his own family and many of his church attenders suffer through schools being closed and even in his own church which was closed for many months. However, the gospel cannot be shut down and even amid the coronavirus he saw lives saved and transformed! One such family was the Nzahumunyurwa family. Pastor Ephrem returned to their home four separate times and on the last

## A PROPHET SENT BY MUHAMMAD

### *A Muslim Meets Jesus*

Pastor Jules, one of Gospelink's supported African pastors, was visiting a nearby village with some of the students from the missionary school. For several days they went door-to-door sharing the gospel and met a man named Sumahili Omari. Sumahili was a Muslim, but his wife was a Christian. When Pastor Jules asked him if he could share the Word of God with him, Sumahili replied that he was a Muslim. In fact, he said that his grandparents, parents, and all of his family were Muslim. He added that,

*"I know Jesus, He is not God, but a prophet sent by God like Muhammad. He has done many good things to people. That is all!"*

The pastor started sharing with him who Jesus really is, what His main mission on earth was, and the reason why He had to die on the cross. After hearing his explanation, Sumahili was convicted of his sin and believed in Jesus Christ as his Lord and Savior. This brought great joy to his wife. In those three days, a total of 48 people from that village were won to Christ.

# AMBASSADOR INTERNATIONAL UNIVERSITY UPDATE

## *Even in a Year Like 2020*

The Lord has done some amazing things for Ambassador International University (AIU), even in a year like 2020! Many needs were graciously provided as God has poured out His blessing on the university! Here are some highlights:

The Salama Stove building was built. Previously, villagers would cook over wood in their houses as smoke rose through the thatched roof. Now, AIU constructs the Salama stoves for cooking and heating water while venting exhaust outside of the home. They provide a source of income for the local villagers who are learning to construct them.

The Hammer Mill was constructed and is used to grind corn into a staple food for the campus and the community.

Students completed their academic year, many isolated at their homes, using the distance learning curriculum. Thirty electronic notepads were purchased to help the students study remotely from their homes. The seniors were able to graduate on time and COVID-19 did not stop the university from achieving its mission and purpose in providing theological training for the students.

A new solar system was constructed at the clinic which provides sun generated power around the clock.

Six housing units were constructed for medical personnel who will live on campus and work at the clinic.

The Master of Theology Program was launched using a distance learning format. There are ten students working diligently in the program, including one in the USA.

The Dual Enrollment program was initiated for high school students in the USA enabling them to take courses for both high school and college credit. Already 50 colleges and universities have agreed to accept some of these courses for full college credit. (See back panel for more info.)

A daycare facility has been constructed for the staff children. It includes two large and colorful classrooms, two bathrooms, and a play yard complete with swings, slides, rock climbing wall, rope climbing, and more. The little tykes will be thrilled to begin the new year in their innovative classroom.

The mission of AIU has faithfully continued through all the pitfalls of 2020. All praise to the Lord for providing during such an unprecedented year. The time is short, and opportunities to share the gospel to those who need to hear are vast. To anyone who has contributed financially or through prayer, thank you.

## Preacher Spotlight

### O'BRIEN CHISENGA

*Junior*

*"I am writing this to express my gratitude for the work that God is doing in our lives through the help of Gospelink supporters. My name is O'Brien Chisenga. I am a junior at Ambassador International University in Zambia. I attended the discipleship seminar and was prompted to start a discipleship group here on campus. I cannot fully express what the Lord has been doing during the months that we have been meeting. We pray that God will help us with what we need to keep making disciples wherever we go. I and my colleagues believe*

*that this group will not be the end of our zeal for disciple-making. We will continue to do so until the entire world becomes full of disciples who will make disciples who will also make disciples.*

*From the experience that I have had in this group, I think we need more of these groups. This can help people to be spiritually disciplined and to be accountable for their own spiritual growth. On behalf of the entire group, I am saying thank you for what you taught us. We hope to receive additional help and then to help others grow even more in their relationships with Christ."*

### SAMWELI EZEKIELI

*Tanzanian Preacher*

Pastor Samweli is a small man in height, but in the eyes of God he is a giant! Why? Because this Gospelink pastor has led thousands to Christ and has helped to start many churches in Tanzania. In the complex year of 2020, he led over 120 people to trust Christ as Savior!

In the village of Kibaha Kwa Mathias a new church has been planted. One of the villagers transformed by the gospel was Masumbuko.

Before hearing about Christ, he was a thief and often was beaten in return. The scars on his body bring reminders of a life lived without Christ. He was tired of his own life and wanted to change but wondered how anyone would trust him again. About that time, Pastor Samweli knocked on his door and shared the unconditional love of Jesus. He repented and put his faith in Christ! Now he is attending discipleship classes and plans to be baptized.

## HARVEST HOPE HOME UPDATE

### *Hiccups & Hindrances*

In the west we refer to obstacles as bothers, setbacks, and trials. In Africa a softer, less abrasive term is applied — hiccups.

As the world coughed, fretted, and shut down due to COVID-19, Harvest Hope Home hiccuped. The Malawi government followed the lead of other nations and tried to prevent the spread of the pandemic. Schools endured the most uncertainty, and Harvest Hope Primary school with its 120 pupils—50 of them attending from the surrounding villages — was closed...then opened... then closed again...then opened, then closed. Not to see their children fall behind, the mothers and fathers organized a schedule for morning studies. The children were giddy and excited with the new format at first, but of course academics are academics, and the routine soon became normal. These dear parents must be applauded for their extra impetus and effort to train these children during uncertain times.

The solar powered water pumps which were installed this past year

are paying dividends with gravity fed irrigation. The normal once-a-year harvest that comes with the rainy season is now supplemented with gardens growing collards, mustard greens, tomatoes, and okra every single month!

As the ministry influences the surrounding communities, we do not forget that gardens, crops, irrigation systems, and education are all part of a process of forming lives and discipling them. The orphans adopted into Harvest Hope Home in 2012 are becoming young men and ladies, and we are looking to the Holy Spirit for an eternal harvest. Though not yet realized, we catch glimpses in their lives and character. In 2020, Rahim, a ten-year-old, announced that he no longer wanted a Muslim name. He declared that his new name was “Owen,” and though no one knows where he heard such a title, it evidenced that he wanted to change his identity to that of a Christ follower! Pray that our Lord continues His hand of harvest at Harvest Hope Home.

PHILIPPIANS 2:2

## A LOVE STORY

### *But Not A Romance*

From Shakespeare to Spielberg, romance sells! Love does more than that. One of Gospelink's Field Directors, recounts the story....

I met Nikolai Zholovan in 2003. The images of the Ukrainian city of Zaparozhoe impressed my mind like the debut of a play. It was indeed my first time to visit Ukraine, and the opening scene, Act 1 as it were for Gospelink, occurred in a small church basement as Pavel Petrovich introduced us to a dozen national preachers. These evangelical men were time-tested followers of Christ though most were veterans of Communist persecutions. Their expressions were subdued and guarded; the Soviet had taught everyone to be stoic. These preachers were men of the Word, but they bought their rye bread with money made by hands rough from laying bricks, driving trucks, and mechanical repairs.

Anatoly Lalenko owned not a white tooth—they were all brass. Alexander Isaiev spoke little, gaining respect from silence and age rather than wit and verbosity. Nikolai Zholovan showed no airs of arrogance nor ecstasy of anticipation. He sat with his comrades, calm and listening. We explained our desire to aid them in the spread of the gospel in their country and stated that God had many in America who desired to help them reach their people. These men were already working for the Lord, they were not dependent on funds from abroad to serve the Lord of the harvest, but if the Lord was indeed opening such a door, they

would thank Him for it!

I met Judy in 2003 as well—also in a church building. This building was situated in northern Virginia, within potential walking distance of our nation's capital. The padded pews and air conditioning surely lay in contrast to that of the church in Zaparozhoe. On my person I carried profiles of our recently approved Ukrainian national preachers. After repeating our Lord's cry for laborers in His harvest and our great privilege to be partakers in Jesus' Great Commission, I talked to individuals about sponsoring a national preacher. Judy read Nikolai's testimony, then told me that she wanted to be his sponsor.

Though not romantic, the story of Nikolai and Judy is a true love story. The object of their love is the Lord Jesus. Judy gives money and reads Nikolai's letters simply because they both love Jesus. Nikolai works hard and though he has aged since 2003, he continues to teach Bible studies in the villages and help with children's camps in the summer. His endeavors are not executed to impress an American lady; he loves Jesus. Judy has never visited Zaparozhoe, but she has photos of those touched through their joined ministry. Judy writes to Nikolai and in turn reads his quarterly reports. She prays for his labors. She continues to be his sole supporter. God must have envisioned such a relationship when he commanded the Philippians to "*be ye like-minded, having the same love, being of one accord.*"

# TOGETHER IN THE NORTHERN HEMISPHERE

*The Lord of the Harvest has His People Spreading the Gospel*

Fifty years ago the vast expanse of the USSR was infamous and renowned for its walls that kept people in! The limitations of personal freedom were accompanied by an exclusion of the knowledge of God the antichrists claimed did not exist. Today that God can say that the Union of Soviets no longer exists. The walls are down, but men's hearts do not seek God. Nonetheless, throughout Eastern Europe and Central Asia — places once subservient to Moscow — the Lord of the harvest has His people spreading the gospel.

These harvest workers in Ukraine are not blessed with an infrastructure which

readily supplies them with Vacation Bible school material, yet they organize weekly summer camps to reach the youth with the knowledge of Jesus Christ. The pandemic throughout Europe curtailed attendance, but from the Carpathian Mountains to the Dneiper River, Gospelink preachers donned masks and persevered this year!

Pavel Petrovich Metlenko, Gospelink's National Director in Ukraine, contracted COVID-19 in November of 2020 and passed away with pneumonia complications. His departure was not anticipated;

he was aging but still serving fervently. Nonetheless Pavel Petrovich leaves a testimony of a faithful God. He was a man concerned about God's reputation and the purity of the bride of Christ. Despite his meager living allowances in his Soviet industrial city, he never filled out an application for personal support from Gospelink. Even though he was evangelizing a small village himself, he always knew of, and recommended, a preacher more needy than himself. Pavel Petrovich then directed Gospelink to find and assist national preachers in Ivano-Frankovsk, Karkov, and Dnepropetrovsk! The work he started continues!

## STANDING IN THE GAP IN INDIA

*"And I sought for a man among them, that should make up the hedge, and stand in the gap before me for the land, that I should not destroy it: but I found none." (Ezekiel 22:30 KJV)*

*"This has been a time of unavoidable pain, loss, anxiety, stress and fear. Pastors pray and counsel those who are struggling with various issues due to the pandemic. Our pastors have been battling in prayer for those who are infected and for those who lost their loved ones. Intercessory prayer goes on daily. One pastor calls five people from his church daily to inquire about them and pray for them.*

*In some remote villages not touched by COVID-19, they have worship service early in the morning around 4:30 a.m. We thank God for Gospelink for their generous, sacrificial gift for COVID relief. The hearts of the widows, poor, handicapped, jobless, sick and elderly people were very much gladdened by the gifts of cash deposited and groceries distributed. This was the love of God in action."*

# A HOUSE CHURCH IS BORN IN SOUTHEAST ASIA

## *God's Mercy Over Addiction*

Mr. Ly, a young Asian farmer found himself with a severe gambling addiction, robbing him of money to consistently provide for his wife and two young daughters. Great conflict and stress arose in the home as the couple began arguing day and night. Mrs. Ly felt that she was living in a lake of suffering, and that her dream of having a happy family had vanished. Their lives were so empty and without any purpose.

One day, as Mr. Ly was begging for rice in his village, the Lord brought a Christian man, one of Gospelink's sponsored preachers, across his

path. The preacher shared the gospel with Mr. Ly and his family. This message of salvation was new to them. With joy, they both received the gospel, turned from their sin, and were born again! Their lives have been forever changed by the grace of God.

Mr. Ly is being discipled and trained and God recently called him to start a new house church in his village. Through God's grace and the testimonies of the Ly family, four new families have been saved and the house church currently has 24 members attending. Hallelujah!

## A CAMBODIAN WEDDING PAUSED

### *As Four Men Meet Jesus*

There was a wedding at the RON TAH church for one of the church members. Pastor Mom Rin and one of Cambodia's preachers sponsored through Gospelink, were hosting. Pastor Mom Rin shared the marriage message with the people while Gospelink's preacher shared briefly about Jesus' amazing love. The

bridegroom was very touched by God's love. He learned that he was a sinner in need of a Savior. Before continuing with the wedding ceremony, he wanted to accept Jesus as His Savior. Three others joined him and the four individuals repented and confessed faith in Jesus Christ.

## FINANCIAL UPDATE

### We are Moved by You

In every corner of the earth, the year 2020 delivered the unexpected. Simultaneously, life became more fragile yet more precious. Saints were comforted by sweet thoughts of eternity, but to those in darkness things grew darker. God's grace sustained our ministry and partnerships with a sense of urgency propelling us forward. A common prayer request around our offices was "Lord, may more people become saved than become sick during this pandemic."

Our donors felt that same way as phone calls poured in to check on the well-being of sponsored preachers. The results were hundreds giving above and beyond. *The financial figures highlighted on this page celebrate that the Gospelink family continued to share faithfully during a difficult year to bring glory to the name of Jesus!*

Our commitment to you — to be a beacon of gospel-centered hope around the globe — remains unchanged. For those still needing to hear, who do not even know their need of a Savior, let us move forward together with an urgent resolve to make Him known.
